FROM: Chief Information Officer (Acting)

SUBJECT: Revised Deadline for Compliance with Requirements for Managing
Elevated User Privileges

NITR 2810-14, "Managing Elevated User Privileges on NASA Desktop and Laptop Computers," dated September 10, 2008, states that, "all NASA desktop and laptop computers shall be in compliance with this policy no later than 1 June, 2009." Due to the complex nature of the requirements, the ongoing planning efforts to meet the requirements in the policy, as well as other concurrent Agency wide projects, the Office of the Chief Information Officer is extending the deadline for compliance with the requirements set forth in NITR 2810-14. The new deadline for compliance is February 1, 2010.

NITR 2810-14 is currently being revised to clarify the requirements and scope for managing elevated user privileges at NASA, and will be reissued in the coming weeks. Additional implementation guidelines will also be issued.

If you have any questions regarding this memorandum, please contact Marion Meissner at Marion.Meissner@nasa.gov or 202-358-0585.

Bobby L. Getman
